EARTHSHIP

EXPERIENCE WEEKS, JUNE,UK

Heidi & Sav Pavlou on the first course

GROUNDHOUSE SHEPPEY, FROM JUNE 2016, SOUTH EAST ENGLAND

Based on the "Groundhouse" in Brittany featured on Grand Designs, Groundhouse Sheppey has full planning permission and will be the first permanent family home of its kind in the UK.

Conceived by Heidi and Savas Pavlou as a home & Bee sanctuary, the project is having to adapt to an environment of extremely tight building regulations, challenging the owner builders & impacting on the design, systems & materials. Daren Howarth is providing advisory to the project, & Jon Kalviac is leading on the build with Gordon Livesey providing project management. **Volunteers needed now - a unique chance to learn with Jon as part of a dynamic team -** about earthship wall construction, & later carpentry, glass bottle bricks, cobbing & clay rendering.

What: **free earthship learning experience**
3 meals a day, local pick up
Camping in the field on site

When: 3 June 2016 onwards

Where: Isle of Sheppey, Kent

Contact: Heidi Pavlou, **groundhousesheppey@yahoo.com**
